

Trina brand monocrystalline photovoltaic panel price

What are Trina Solar panels being sold?

Trina Solar panels being sold are monocrystalline solar panels. They are considered the most developed solar cells, made from a single silicon crystal, resulting in higher efficiency and sleeker aesthetics compared to polycrystalline cells.

How efficient are Trina Solar panels?

Trina Solar panels have an efficiency of up to 20%. They provide great power output and greater energy yields in many conditions and climates. Trina solar modules perform excellently at low irradiance, on cloudy days, mornings, and evenings.

What is Trina Solar?

Trina Solar is a global leader in the field of solar PV modules, solutions, and services. Founded in 1997, the company was a pioneer in solar systems and today stimulates the development of the smart energy sector along with installers, distributors, utilities, and developers around the world.

Does Trina Solar have a warranty for their panels?

Trina backs every module with a 10-year product and a 25-year linear power output warranty. Trina guarantees their module output to be at or above its nameplate wattage. Please refer to the datasheet that comes with every Trina solar panel.

How many countries does Trina Solar sell to?

Trina Solar now distributes its PV products to over 60 countries all over the world. Trina Solar is able to provide exceptional service to each customer in each market and supplement our innovative, reliable products with the backing of Trina Solar as a strong, bankable partner.

Does Trina Solar 415w work under harsh conditions?

Trina Solar 415W has a low temperature coefficient of -0.36% , which means that the module's efficiency decreases just 0.36% for every 1.8°F above 77°F . This helps to maximize the final energy output. This model is certified to work under harsh conditions.

TSM-DE06X.05(II) is a panel from Chinese brand Trina Solar. Designed with aesthetics in mind, it is a good module for residential installations. The panel combines great production levels with high reliability. ... Trina Solar panel ...
