

Trinity photovoltaic panel appearance

Which brand of solar panels does Trinity provide?

In our research, we found that Trinity has provided Qcells solar panels, a well-known, reliable brand of solar panels across the industry. Other major providers, such as Tesla, use Qcells for solar projects. However, the brand of solar panels you receive from Trinity depends on the availability in your area at the time of installation.

Does Trinity solar install qcells solar panels?

Trinity Solar installs Qcells solar panels, although it could install something else if a customer requests it, said Kristen Drigon, a spokesperson for Trinity Solar. The widely used residential solar panels from Qcells, one of the largest solar panel manufacturers in the world, have top efficiency ratings from 20.6% to 20.9%.

What is a typical installation experience with Trinity solar?

A typical installation experience with Trinity Solar would look as follows: The first step of going solar with Trinity is an energy consultation. It consists of submitting your address, phone number and electricity bills. This is followed by a discussion with a sales rep and an analysis of your bills.

Does Trinity solar offer a roofing service?

Trinity is also set to launch a roofing service in the near future. A typical installation experience with Trinity Solar would look as follows: The first step of going solar with Trinity is an energy consultation. It consists of submitting your address, phone number and electricity bills.

Is Trinity solar a good solar installer?

Although some customers have had an unpleasant experience with Trinity's customer service, its massive growth over the years and majority of customer reviews suggest that the company's customer service - particularly the customer service manager - is laudable. Trinity Solar is not necessarily identified as an inexpensive solar installer.
