

Trump talks about solar power

In April, when Secretary of Homeland Security John Kelly testified before Congress about the wall, he mentioned solar panels. Despite Mr. Trump's claim that the solar wall was his idea, sketches ...

Former US President Donald Trump has claimed that wind turbines off the coast of the US "are causing whales to die in numbers never seen before" ... "To talk about wind ...

In his Iowa speech, Trump also made unrealistic claims about putting solar panels on his long-promised border wall with Mexico and outright misleading claims about the recently exited ...

2 #0183; The nation's largest-ever solar power project's plans -- Solar Partners XI's 690-MW photovoltaic facility near Las Vegas -- materialized in early 2020, during Trump's first Presidency.

Later in the interview, Mr. Musk said he was less worried about a more gradual shift to wind, solar and other emissions-free energy sources. "If, I don't know, 50 to 100 years from now, we ...
