

Universal angle steel for storage cabinets

What is a 14 gauge steel angle?

These specialty structure pieces come in both a medium-duty 14-gauge steel angle and a 12-gauge heavy-duty angle. All gauges of steel angle are 1-1/8-inches-deep. Depending on the gauge, the slotted angle will have different widths. These all steel components have a galvanized finish.

What is a slotted steel angle?

A slotted steel angle, as offered by Lyon, is a type of metal angle that allows you to build structures without the need for drilling or welding. This is accomplished by using a wrench instead. Our slotted metal angle is adjustable, enabling you to make changes as you build without having to dismantle and start over. Simply loosen a nut and bolt and adjust it within the slot.

How do you use angle steel?

You can build what you need, when and where you need it. Use slotted angle to build either protective framing around your machinery or build a platform around assembly projects. Perforated angle steel will also make a great option for support framing for displays. These unique configurations are useful in either museums, retail outlets, or schools.

What is a locking metal storage cabinet with adjustable shelves?

Keep hazardous materials or important documents safe in your home or office with the Locking Metal Storage Cabinet with Adjustable Shelves from Aobabo. This storage cabinet features 2 shelves that can be adjusted up or down to accommodate larger or taller items. Both doors lock shut using a 3-point locking mechanism to keep the contents secure.

Why should you use Republic slotted steel angle?

You can solve unique storage problems with ease using Republic slotted steel angle. You can build what you need, when and where you need it. Use slotted angle to build either protective framing around your machinery or build a platform around assembly projects. Perforated angle steel will also make a great option for support framing for displays.

What is a perforated angle steel rack used for?

Perforated angle steel will also make a great option for support framing for displays. These unique configurations are useful in either museums, retail outlets, or schools. Custom built racks work in any place that needs non-standard sizes of storage racks. Republic has been the racking industry standard for over a century.
