

Universal bracket solar panel

What is a solar panel mounting bracket?

Refer to section "Installation handover" This solar panel mounting bracket is a robust and versatile galvanised mild steel bracketsuitable for mounting a variety of solar panels between 20W and 150W in size,against a wall or on a post.

How do solar panel brackets function?

Solar panel brackets function by being installed through fastening bolts or applying adhesive on the mounting rails onto a flat surface. Solar panels should be installed at an angle to allow the cells to receive as much sunlight as possible.

How to install a solar panel bracket?

To install a solar panel bracket,apply adhesive to the upper side of the bracket(this is where the solar panel will be positioned). Position and press firmlythe side bracket along the side of the solar panel and repeat this process with the other side bracket. Allow the adhesive to dry as per the product specifications.

What are solar panel mounting brackets in the Philippines?

As the name suggests,they are used for the installation of solar panels. Solar panel mounting brackets in the Philippines vary in size,shape,and durability. These brackets are secured on whatever surface,usually rooftops,the solar panels are being installed to. Then the solar panels are attached to the mounting brackets.

How many watts can a solar panel fit in a bracket?

Please note that this bracket can accommodate up to a 150Wsolar panel. For brackets rated between 20W and 80W,align the short edge of the solar panel to the top edge of the bracket (Figure 3). For solar panels rated between 100W and 150W,align the long edge of the solar panel to the top edge of the bracket (Figure 3).

5.2. Mounting options
