What is a villagrid energy storage system?

The VillaGrid energy storage system is complementary to home solar panels which charge the battery. As homeowners face rising electricity rates, unplanned power outages and Public Safety Power Shutoffs, the VillaGrid can help them reduce their electric bills and better endure blackouts.

How do I Configure my villagrid energy storage system?

Your VillaGrid energy storage system is configured through the inverter, where it can be set to maximize backup capacity, maximize energy savings (e.g., peak shaving), and many other options. Your VillaGrid energy storage system comes with a quick-start guide as well as a more in-depth manual to explain the available options.

How much does a villagrid Solar System cost?

If you want to install the VillaGrid as part of a solar-plus-storage system, battery costs are just one part of the equation. A 5 kilowatt (kW) solar energy system costs anywhere from \$9,000 to \$15,000, depending on where you live and the type of equipment you choose.

Where is Villara energy systems located?

Villara Energy Systems, located near Sacramento, California, is part of the Villara family of companies (established in 1947), which has been installing home energy equipment (including solar, batteries, and generators) for about 20 years. In 2021, it launched the VillaGrid, the only 20-year home battery currently available on the market.

Can a battery run on a villagrid?

No other battery can come close to the VillaGrid's power-to-energy ratio; no other battery uses a non-flammable battery chemistry; no other battery comes with a standard 20 year warranty; and no other battery can operate down to -22°F (-30°C). What happens when there is a power outage?

Can solar power be stored in a battery?

Existing solar systems typically have solar inverters which change the DC power produced by panels to AC power that can be consumed in your home or exported onto the grid. But if you want to store that AC power in a battery, it needs to be inverted again to DC power.
