

What to do if photovoltaic panels are damaged by hail

How can I protect my solar panels from hail damage?

Although there's not much you can do to stop Mother Nature, there are a few things you can do to protect your solar panels from potential hail damage before and after your installation. For starters, get a professional to install your solar panels and ask to see the technical specifications and ratings associated with the equipment they use.

Do solar panels cover hail damage?

Not all solar panel warranties cover hail damage. Most homeowners' insurance provides hail coverage for solar panels installed on rooftops. High-quality solar panels are very resistant to hail damage and have been tested to withstand such severe weather events. What is hail? Hail consists of solid ice, which falls from the sky like rain or snow.

How common is hail damage to solar panels?

According to a study conducted by the National Renewable Energy Laboratory (NREL), the probability of hail damage to a PV system is below 0.05% (or less than one in every 2,500 installations). [LEARN: How long do solar panels last?](#)

Does homeowners insurance cover hail damage to rooftop solar panels?

Homeowners insurance might provide protection for hail damage to rooftop solar panels if specified in the policy. Choosing hail-resistant panels with UL 61730 or IEC 61730 ratings can bolster their resilience against hailstorms.

Should I Cover my solar panels during a hailstorm?

When a hailstorm is in the forecast, you can cover your panels to prevent damage. A hard shell covering provides the best protection against impact. Hard Cases protect the panels completely, taking the full force of hail stones or other weather events, leaving the solar panel beneath it.

Can solar panels withstand hail?

Solar panels are surprisingly durable. In most storms, they can withstand the weather onslaughts that come. Even hail is usually not enough to damage your solar panels. But in severe hailstorms, the beating might be too much for the panels to withstand.

Install a Solar Panel Hail Protector. ... What You Can Do If the Panels Were Damaged by Hail. First of all, all modules should be examined for visible damage. If the glass cover cracked, then most likely water has also ...
