

When is the best time to clean the photovoltaic panels

When is the best time to clean solar panels?

That means spring is the best time of year to clean solar panels, as they become too hot to touch during the summer. The best time of day to clean them is in the morning or early evening when they are cooler. There are companies working on ways to use advanced technology to monitor the condition of solar panels and remove some of the guesswork.

How often should you clean solar panels?

That's why experts recommend cleaning solar panels at least two times a year. Dust is the most common culprit when it comes to cleaning panels in the country. But even then, its effect on a panel's efficiency isn't as devastating as it may seem at first glance.

Should you clean your solar panels during the summer?

Less than 0.05 percent efficiency is lost on average. For a homeowner, that adds up to saving about \$20 a year by cleaning their solar panels halfway through the summer. Essentially, under normal circumstances, you'll likely pay more to have your panels cleaned than you'll earn back in solar efficiency.

Do you need solar panel cleaning equipment?

But first, let's look at when and why you might need to invest in solar panel cleaning equipment or hire a professional cleaning service. Google did a study on the need to clean solar panels. They found that tilted panels don't require cleaning as much as flat panels.

How much does solar panel cleaning cost?

Companies typically charge \$5 to \$15 per panel for solar panel cleaning services. Not cleaning your solar panels can lower your solar savings by \$79 per year, on average. You can clean solar panels yourself in a few simple steps or seek out a cleaning company that can do it for you.

Should you hire a professional for solar panel cleaning?

Hiring a professional is often recommended for solar panel cleaning to eliminate the risk of any injury. Seeking out a solar panel cleaning service is a viable option for homeowners to do regular maintenance on their panels. It also prevents you from accidentally damaging your panels in the process.
