

#### Where is JA Solar based?

PHOENIX, AZ (January 10, 2023) -- JA Solar, a global solar cell and module manufacturing leader, announced today it has leased space for its first manufacturing facility in the U.S. in Phoenix, Arizona. The new facility will produce high-performance photovoltaic (PV) products, and is expected to be operational by Q4 2023, creating over 600 new jobs.

### Will JA Solar manufacture solar panels in Phoenix?

"We are grateful JA Solar will manufacture its high-efficiency solar panels in Phoenix, enhancing Arizona's renewable energy industry." Once operational, JA Solar's Phoenix facility will be the largest manufacturing site of solar/PV products in Arizona with a capacity of 2 gigawatts.

#### Will JA Solar build a 2 GW solar plant in Arizona?

China's JA Solar has announced plans to invest CNY 408 million (\$60.5 million)in the construction of a 2 GW PV panel factory in the US state of Arizona. The solar cell and module maker said in a statement that it has already leased land for the manufacturing facility at an unspecified location in Phoenix.

#### When will JA Solar start production in Phoenix?

The Phoenix factory will manufacture high-efficiency solar PV modules for commercial and residential rooftop applications and utility-scale power plant projects, according to the announcement. JA Solar expects to start operations by the fourth quarter of 2023. "Arizona is proud to welcome JA Solar's first U.S. manufacturing facility to Phoenix.

#### What products does JA Solar offer?

The range offered by the company includes JA Solar monocrystalline solar panels, as well as other accessories for photovoltaic systems, such as silicon wafers, cells, monocrystalline modules, photovoltaic components, inverters, and load-bearing and mounting systems.

#### Who is JA Solar partnering with?

"JA Solar thanks all the partners in Arizona, especially the ACA, GPEC, and the City of Phoenix for their great support and tremendous assistance during the entire process of site selection and space leasing in preparation to establish the manufacturing facility.
