The 30-Watt Portable Monocrystalline Solar Panel, Foldable Table is the best-rated product in Solar Panels at The Home Depot. All Solar Panels can be shipped to you at home. The most common feature for Solar Panels is outdoor use.

Where should solar panels be installed?

Solar panels can be used to power even smaller amounts and come as wall mounts or flexible pads to aid portability. Solar panels for home use come as stationary units that are installed on roofs, posts or outer walls. Panels should be installed on south-facing surfaces to maximize exposure to the sun. Find mounting kits to aid installation.

Are solar panels sold separately?

*Solar panels are not sold separately. Grid tie inverters convert solar DC power to home-friendly AC power and provide net metering capability. Batteries optimize cost savings by storing surplus energy when rates are lowest and utilizing it during peak demand times. They also serve as a reliable backup power source during outages.
