

Where to find workers for photovoltaic panel installation

What does a solar photovoltaic installer do?

Solar photovoltaic installers are key to the process of solar panel installation and maintenance. They use specialized skills to install residential and commercial solar projects. They are responsible for safely attaching the panels to the roofs of houses or other buildings and ensuring that the systems work.

What are the different types of solar installation jobs?

These jobs are widely available, as solar installation companies are located nationwide. PV installers do a lot of work on roofs, laying down the solar racking system, panels, and wiring. Other areas of PV installation can include battery installation, site assessment, and roofing. Disclaimer! Working in solar can be physically demanding.

How much do solar photovoltaic installers make a year?

The median annual wage for solar photovoltaic installers was \$48,800 in May 2023. Employment of solar photovoltaic installers is projected to grow 48 percent from 2023 to 2033, much faster than the average for all occupations. About 4,100 openings for solar photovoltaic installers are projected each year, on average, over the decade.

What skills does a solar photovoltaic installer need?

Solar photovoltaic installers must be able to work with power tools and hand tools at great heights, and possess in-depth knowledge of electrical wiring as well as basic math skills. When necessary, installers must be problem solvers, able to repair damaged systems or replace malfunctioning components.

Do plumbers & electricians work on solar installation projects?

Plumbers and electricians working on solar installation projects must also have specialized training on the systems that they will be installing, or they must work under the supervision of a qualified solar photovoltaic installer.

How do I become a solar panel installer?

You can usually learn most construction skills during on-the-job training or an apprenticeship. Solar panel installation involves physical labor, so you should be able to lift heavy objects, climb a ladder, operate tools and equipment and feel comfortable with heights.
