

# Which solar power generator is best for home use

What is the best portable solar generator?

Its Delta 2 Portable Power Station paired with the 220-watt (W) Bifacial Portable Solar Panel is our favorite portable solar generator setup. It's not small and light, with the power station itself weighing in at 27 pounds, but it's not unmanageable for most.

Are solar generators a good option?

Whether you are looking for a viable "off the grid" living option or want a backup power supply in case of total power loss, solar generators offer a green solution that can be just as effective as gas and propane generators.

Which battery is best for a solar generator?

The best solar generators and portable power stations today are increasingly using LiFePO4 batteries, but the Goal Zero Yeti 500X features an NMC battery. This has advantages, such as a smaller overall size, as well as disadvantages, such as a potentially shorter lifespan.
