

# Who should I contact if photovoltaic panels are in the way

What questions should you ask a solar panel salesman?

Here are some of the most important questions to ask when considering solar energy installation. Before you purchase a solar panel, you will most probably engage with a solar panel salesperson. These are the top questions to ask a solar salesman. 1. How Does The Solar Panel System Work?

How do I choose a solar panel company?

Examine how your situation fits with solar panels before moving ahead and compare quotes from multiple solar companies and installers before making a decision. Solar panels use photovoltaic cells to harness radiation from the sun and convert it into electricity. They're an emissions-free energy source that reduces your carbon footprint.

Should you go solar if your home is not suitable for solar?

If your home is not suitable for rooftop solar, you can still get the benefits of clean energy by investing in a community or shared solar program. By going solar, you can play an active role in achieving the nation's goal of a carbon-free electricity sector by 2035. For more information, visit the Homeowner's Guide to Going Solar.

Are solar panels a good option for your home?

Residential solar panels allow you to pull less energy from the grid. With the addition of solar batteries, solar panels could make your home self-reliant and independent from the electric grid. Solar batteries store energy created during sunny hours, allowing it to be used at night or on cloudy days.

Can a roof support solar panels?

Make sure your roof can support solar panels. A solar installer, roofing expert, or structural engineer can help you determine your roof's solar suitability.

Do solar panels add value to a house?

Solar panels can add around \$15,000 of value to your home and help your house sell quicker than houses without solar, according to the US Department of Energy's Lawrence Berkeley National Laboratory. Solar panels can add to your home's value. Solar panel cost and efficiency has improved greatly over the last 10 years.
