

# Who will invest in the photovoltaic panel leasing model

Is a solar lease a good option for Resi-Dential PV systems?

As a result, the solar lease still may be an attractive option for many homeowners who want to install a residential PV system and begin generating solar electricity. This publication examines the solar lease option for resi-dential PV systems and describes two solar lease programs already in place.

Should you buy or lease a solar panel?

Choosing the right solar panel financing option will make going solar more affordable and extend your long-term benefits. A solar lease can help you avoid hefty upfront installation costs and enable you to benefit from energy savings sooner. However, it can also negatively impact solar incentive savings and home value.

Can you sell a solar system under a lease?

Under a solar lease, you won't own your solar system, but will still benefit from its generated electricity. A leased solar system can make selling your home more difficult because the next owner may not want to take over your lease payments. What is a solar lease?

How does solar leasing work?

Under this agreement, you make monthly lease payments and get full access to all solar power generated, which helps lower your utility bills. Solar leasing works best for homeowners who can't afford the high upfront costs of purchasing solar panels or the responsibility of ongoing maintenance.

How do Solar Lease companies make money?

All the solar lease providers listed make their money by financing a solar system for your home and then selling you the solar electricity from the panels. In most cases, the companies promise you will save money on your power bills in the first year - a win-win situation.

Do you need a solar loan to buy a PV system?

If you take out a solar loan to purchase your PV system, you will be responsible for its maintenance. In either case, solar is a generally low-maintenance power source, and the equipment you buy with your solar loan should have warranties that range from 10 to 25 years. Monthly payments differ slightly between leases and loans.
