Is Northland Power a good wind energy stock?

Northland Power also trades over-the-counter (OTC) in the U.S. under the ticker NPIFF. These are the top wind energy stocks as ranked by a growth model that scores companies based on a 50/50 weighting of their most recent quarterly YOY percentage revenue growth and their most recent quarterly YOY earnings-per-share (EPS) growth.

What is a wind energy ETF & how does it work?

The ETF invests in pure-play wind companies that get at least 50% of their revenue from wind-related activities (60% of the fund) and diversified companies involved in some aspect of the wind energy industry (40% of the fund). As of mid-2024, it held more than 55 wind energy stocks.

Is GE a wind stock?

While those revenue numbers are larger than the entire operations of a few stocks on this list and the stock is incredibly liquid and widely held, the reality is that wind is not a significant driver of GE's success as a corporate entity. In other words, while stocks like GE may be more prominent or easy to trade, they are not truly "wind stocks."

Are floating wind turbines a viable option for energy companies?

When companies first started harnessing offshore wind power, the wind turbines were placed on fixed structures. In more recent years, floating wind structures have been developed to support wind turbines. With these floating wind turbines, energy companies have more options to deploy turbines.
