

Yingli Photovoltaic Panel Litigation Information

Who is Yingli in solar panels?

Yingli is a leading Chinese manufacturer of solar PV modules. We have chosen Yingli Solar Panels for our complete systems due to their module quality, performance, and company financial health and stability. Yingli is one of the leading solar panel manufacturers in China.

How much do Yingli solar panels cost?

Yingli's solar panels will cost you anywhere between \$2.50 and \$3.10 per watt. For reference, an average 7kW solar system can cost you about \$21,000 before the federal tax credit. You can expect Yingli Solar panels to be slightly below the average because they are known as a less expensive brand.

How will Yingli promote a smooth restructuring?

In order to promote a smooth restructuring, Yingli will actively cooperate with the court and the administrator in accordance with the law, fulfill its obligations, protect the legitimate rights and interests of all parties and communicate with related parties.

What will Yingli do after entering the restructuring period?

It is expected that after entering the restructuring period, Yingli will focus on the implementation of the restructuring plan, as well as the innovation of its business operations model, the optimization of capacity distribution, the upgrading of facility production lines, and the release of advanced technology reserves.

Will Yingli return to healthy development?

The newly restructured Yingli will return to healthy development as its debt ratio is expected to drop to a medium or low level in the industry, and its cash flow will be greatly improved.

What are Yingli's backsheets made of?

Yingli's backsheets are made primarily of polyethylene terephthalate ("PET"). Some of Trina's backsheets are made primarily from PET, and others primarily from ethylene-vinyl acetate ("EVA"). Case: 19-1591 Document: 104 Page: 13 Filed: 06/24/2020 SOLARWORLD AMERICAS INC v. UNITED STATES 14
