

Farmers installing photovoltaic panels scam

Are solar panels a scam?

Here's how to steer clear of the scams: Do some research. Avoid solar companies that say a government program will cover the whole cost of solar panels -- or say they're from (or affiliated with) the government. These are lies. If you're looking at solar energy for your home, get quotes from reputable providers with a valid license.

Do Americans get free solar panels?

American homeowners might be eligible for federal tax credits for solar installations or state subsidies for solar energy, but not free panels. The U.S. government does not provide free solar panels, said a U.S. Department of Energy spokesperson. The department urges people to report scams to the .

Are free solar panels a good idea?

The Facebook post promising free solar panels links to another site with a disclaimer: "No Cost" means that you may not be required to put any money down at the time of installation if you qualify. Solar is not free, but it usually saves homeowners thousands of dollars more than the initial investment.

Are home solar panels a good idea?

Home solar panels can help some households save money on energy-- but be careful if a solar panel salesperson knocks on your door or calls without warning. There are plenty of reputable companies who can install solar panels or help you make other clean energy improvements to your home.

How many complaints have been filed with BBB about solar energy companies?

People filed roughly 13,000 complaints with BBB last year about solar energy companies including contractors, equipment dealers and installers. The St. Louis Consumer Fraud Task Force warned about misleading solar sales last year. Remember: Well-intentioned companies will give you time to consider their offer.

Are you getting ripped off when buying solar panels?
