How do I avoid solar panel scams?

Getting multiple quotes and thoroughly vetting installers is the best way to avoid solar panel scams. You can also use solar.com to compare quotes from our network of thoroughly vetted installers.

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old "government is paying people to go solar" scam. Related reading: Solar Leases vs. Solar Loans vs. Solar PPAs

Are you getting ripped off when buying solar panels?

Solar is expensive, no matter how you shake it. And savings sound nice, but if you get stuck with an overpriced solar panel system that's underperforming, you're going to save much less. That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice.

How do I avoid a crappy solar panel deal?

To avoid a crappy solar panel deal, watch out for these scammy sales tactics. Dealing with door-to-door salespeople is annoying, no matter what they're selling. But the solar industry is full of bad actors, with solar salespeople knocking at your door with misleading offers and overpromised savings.

Can you get scammed if your roof panels don't work?

In the worst cases, homeowners have been left making payments on overpriced systems that don't work, with little to no support from the installation company that put the panels on their roof. To avoid getting scammed, you need to know what to look out for and when to walk away.

Most solar panels used by residential installers today are between 370 W and 415 W, and Silfab's panels all fall in that range, with the Prime NTC slightly exceeding it. Efficiency rating Silfab solar panels have great efficiency ratings ...
