How do I protect myself from solar scams?

Protecting yourself from solar scams means taking a proactive approach and following a few key strategies. One of the most effective ways to protect yourself from solar scams is to know the average cost of solar panels in your area. By researching prices, you can identify quotes that are suspiciously high or low.

Are you getting ripped off when buying solar panels?

Solar is expensive, no matter how you shake it. And savings sound nice, but if you get stuck with an overpriced solar panel system that's underperforming, you're going to save much less. That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice.

What are the most common solar scams?

One of the most prevalent solar scams involves misleading lease agreements or power purchase agreements (PPAs). While these financing options are legitimate ways to access solar energy, unethical companies may misrepresent the terms or benefits of these agreements.

How do I avoid a crappy solar panel deal?

To avoid a crappy solar panel deal, watch out for these scammy sales tactics. Dealing with door-to-door salespeople is annoying, no matter what they're selling. But the solar industry is full of bad actors, with solar salespeople knocking at your door with misleading offers and overpromised savings.

Can free solar panels bring you in on a deal of lifetime?

Sunlight is one of the most widely available resources on the planet. With recent investments and advances in solar energy technology, more Americans than ever before can harness the sun's rays and power up their homes and businesses. Riding this historic trend, some are even claiming they can bring you in on a deal of lifetime: free solar panels.

Are homeowners paying for solar panels in a lease or PPA?

In short, free solar panel ads are typically for leases and power purchase agreements (PPAs). These arrangements are basically long-term solar system rentals in which the solar company owns the panels and homeowners pay a monthly fee in lieu of their electricity bill. So, are homeowners technically paying for solar panels in a lease or PPA? No.
