Do portable solar panels work in apartments?

The market for portable solar has really taken off for outdoor recreation, and these devices can also work well in apartments. They won't power your entire home, but a portable solar product can make a dent. Some portable units that are lightweight and made for camping, hiking, and RV travel fold neatly into a small package with a handle.

What is a portable solar panel kit?

Portable Panel Kits Solar panel kits fall along the continuum of portable solar products, but they may be larger and more rigid than compact portable solar devices designed for travel. They usually necessitate having outdoor space where you can safely secure panels--a sunny patio, yard, rooftop, or balcony--so it's not suitable for all apartments.
