

# Selling photovoltaic panels scam

Are solar panel scams common in Florida and California?

Solar panel scams in Florida and California are quite common, as they are in any region where solar energy is popular and incentives are provided. Scammers take advantage of people's limited knowledge about solar systems, providing misleading information that makes it hard for victims to recognize the scam.

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old "government is paying people to go solar" scam. Related reading: Solar Leases vs. Solar Loans vs. Solar PPAs

How do I protect myself from solar scams?

Protecting yourself from solar scams means taking a proactive approach and following a few key strategies. One of the most effective ways to protect yourself from solar scams is to know the average cost of solar panels in your area. By researching prices, you can identify quotes that are suspiciously high or low.

While you don't own the panels, payments, and terms may still impact you, especially if you sell your home. In most cases, purchasing your solar system offers the best return on investment and the greatest savings. One ...
