

Solar power generation leak repair

How do I know if my solar system is leaking?

Unfortunately, it is very difficult to detect an earth leakage without specialised equipment, and often, even a trained solar professional can have trouble diagnosing an earth fault. Check the solar system performance data on the app and website, if available. Check the solar panels for dirt, leaves, mould, or shade issues.

Who did spruce power hire to repair my solar system?

Spruce Power, our solar provider, contacted Energy Aid to come to our home to repair our solar system. Our repairman, Steve, was friendly, personable and professional. We appreciated his assessment of the problem and pr... Exelent Technician very knowledgeable and thorough. Great service!!!

How do you know if a solar panel is cracked?

Its not easy to look into solar panel connections since the panel is on the roof and the connections are buried within the racking. However, you can easily see a solar panel completely cracked by a rock or an internal wire connection failed with visible burn marks.

Can you clean solar panels on a roof?

Cleaning solar panels should be done using only water and a soft broom. Solvents and harsh detergents should NOT be used to wash the surface of solar panels, as this can lead to water ingress and may void the manufacturer's warranty. Note that cleaning solar panels on a roof can be very dangerous, so using a certified solar professional is advised.
