What are the best storage systems for luggage?

Luggage with shelves is great for staying organized when packing, especially if those shelves offer some compression. There are a few different types of shelving systems incorporated into luggage and this detailed review explores all the best options! Solgaard suitcases are pretty amazing thanks to their built-in closet system.

What is a carry-on suitcase?

Some carry-on suitcases come with a front compartment that is big enough to place your laptop inside. Aside from holding a change of clothes, some toiletries, and other personal belongings that you need for your trip, these kinds of suitcases make traveling for business a lot easier.

Which suitcase should I buy?

Then go with our top choice, especially if you're looking for checked baggage! The Solgaard suitcase is really one of the best options for luggage with a shelving system. The removable closet is very functional, and I love that it also compresses the clothes so you've got even more space inside.

Why are there shelves in my Luggage?

The shelves in this luggage are more about helping you use your suitcase as a closet during your trip, and not really for compressing everything inside. The shelves are secured to the top compartment and they stack when the luggage is opened halfway.

How many shelves are in a suitcase?

The shelves are secured to the top compartment and they stack when the luggage is opened halfway. So, when you arrive at your destination and you open the suitcase to 90 degrees, you get two shelves to store your clothes.

Are the shelves in a suitcase removable?

The shelves store flat so they don't take up too much space inside your luggage, but it's worth noting that they are not removable. Instead, they're built into the suitcase and secured to the top compartment with rivets.
