

Unicom Energy Storage Box

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO₄) combined with an intelligent 3-level battery management system (BMS);

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

Ensure Lithium-Ion Batteries Safe Storage with our detailed guide. Learn effective safety tips, best practices, and how to build a secure storage box to protect your home from battery fire hazards.

Taipei, Taiwan, November 18, 2016 - Delta Electronics, Inc. (also referred below as "Delta") announced its Board of Directors has approved today the acquisition of 100% stake in Unicom ...

The UniCom Standard is a true all-around jetvac combination unit ideal for jetting and suction tasks in city centres and hard-to-reach locations. With high-pressure jetting of 140 bar / 60 lpm and a suction capacity of 5400lpm, house ...

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control ...
